1. CIPC Meeting: The monthly CIPC Meeting was convened on 31 October, at 1530 hours. The primary agenda item was the China Study, which the Committee approved with recommended changes by CIA, DIA, and State. These recommended changes have been incorporated into the study as appropriate. The study has been forwarded to the DCI with the recommendation that it be tabled at a future NFIC meeting. [REDACTED]

2. The CBW Study also received final Committee approval. This study has been forwarded to the DCI. In addition, the Committee approved the Terms of Reference (TOR) for the CIPC CBW Intelligence Subcommittee. The Subcommittee has now had four meetings. To date, it has concentrated on reviewing the resources, tasking, and problems of the major organizations involved in CBW intelligence. [REDACTED]

5. International Narcotics Study: A follow-up report for the DCI and DDCI has been completed and it will be the primary agenda at the 26 November CIPC Meeting. []

25X1

- You will recall that this follow-up report is in response to a number of issues raised during the February 1984 NFIC discussions of the CIPC Narcotics Study. As a result of this discussion, the DDCI requested that we develop a follow-up report which examines several inter-related problem areas including:
 - scope and progress of interagency coordination on narcotics intelligence matters; and
 - detail the improvements made thus far in the collection of narcotics intelligence and recommend actions for satisfying specific collection needs. []
- This report has had the full participation and cooperation of the A/NIO/Narcotics as well as representatives of the intelligence and law enforcement communities. Representatives from the National Narcotics Border Interdiction System (NNBIS) in the Office of the Vice President were also involved in the final drafting process. []
